

KARAMSETTY MEGHANJANI

karamsettymeghanjani555@gmail.com — [LinkedIn.meghanjani](https://www.linkedin.com/in/meghanjani) — Nellore, Andhra Pradesh - 524002

PROFESSIONAL SUMMARY

Data Analyst skilled in SQL, Python, data cleaning, statistical analysis, and data visualization. Experienced in transforming raw data into actionable insights and creating interactive Power BI dashboards to track KPIs and support data-driven business decisions.

EDUCATION

Narayana Engineering College (Nellore, Andhra Pradesh) B.Tech (Oct 2022 – May 2026)
CGPA: 9.3 / 10
Electronics and Communication Engineering

Narayana Junior College (Nellore, Andhra Pradesh) Intermediate (2020 – 2022)
Percentage: 95.1

Sri Saradha School (Nellore, Andhra Pradesh) SSC (2019 – 2020)
Percentage: 9.8

SKILLS

- **Data Analytics & Visualization:** Power BI(Data Modeling, Power Query, DAX), Data Visualization, Dashboard Development, KPI Reporting
- **Data Science:** Data Cleaning, Data Analysis, Machine Learning, Data Preprocessing
- **Database Technologies:** SQL(Joins, Subqueries, Window Functions, Data Analysis)
- **Programming:** Python(Pandas, NumPy, Matplotlib, Data Cleaning), ETL Concepts
- **Machine Learning:** YOLO, CNN Models, Image processing, Model Training & Validation
- **Tools:** Excel(Pivot Tables, VLOOKUP/XLOOKUP, Conditional Formatting, Data Analysis, Dashboard Reporting), Advanced Excel, VS Code, Jupyter Notebook

INTERNSHIP

- **Data Annotation Intern -** Brown Edge Technology Jan 2026 – Present
Processed and validated large-scale image, video, and LiDAR datasets using GT Studio for AI/ML model development. Performed data quality assurance and validation to ensure data accuracy and consistency. Identified and resolved anomalies using analytical and debugging techniques. Collaborated with cross-functional teams to improve data workflows and reporting processes. Generated reports and documented quality metrics to support project delivery.

PROJECTS

- **Sales Analytics Dashboard using Power BI:** Developed DAX measures and calculated columns to build KPI-driven dashboards and drill-through reports..
Used Power Query for data transformation and cleaning.
Created KPIs, slicers, charts, and drill-through reports using DAX.
Generated actionable insights to support business decision-making.
- **Plant Disease Detection System using Machine Learning:** Developed a Python-based plant disease detection system using CNN and YOLO models for image classification and analysis. Performed data preprocessing, cleaning, and validation on agricultural image datasets to improve model performance. Conducted exploratory data analysis and model evaluation to identify patterns affecting prediction accuracy. Implemented a modular architecture using Object-Oriented Programming (OOP) principles for efficient data processing and inference. Utilized debugging and testing techniques to optimize model accuracy and system reliability.

CERTIFICATIONS

- **Power BI Certification — Skill Nation**
Analyzed sales trends, customer behavior, and KPI metrics to identify actionable business insights.
- **Python for Data Analyst — Udemy**
