— Nellore, Andhra Pradesh, 524002

CAREER OBJECTIVE

Detail-oriented Application Support Engineer with knowledge in Functional Test Planning, test case design, and defect tracking. Skilled in troubleshooting software issues, performing root cause analysis, and ensuring smooth system operations.

EDUCATION

Narayana Engineering College(Nellore, Andhra Pradesh) B.Tech (Oct 2022 – May 2026)
CGPA: 9.3 / 10
Electronics And Communication

Narayana Junior College (Nellore, Andhra Pradesh) Intermediate (2020 – 2022)
Percentage :9.51

Sri Saradha E.M High School (Nellore, Andhra Pradesh) SSC (2019 – 2020)
CGPA:9.8/10

SKILLS

- **Testing Skills:** Functional Test Planning, Test Case Design, Test Execution, Regression Testing, Smoke Testing
- **Defect Management:** Defect Tracking, Bug Reporting, Root Cause Analysis
- **Software Concepts:** Software Testing Methodologies
- **Tools:** MS Excel, VS Code, Git, JIRA
- **Databases:** MySQL(Basics)
- **Testing Documentation:** : Test Case Writing, Test Scenarios Preparation
- **Soft Skills:** Communication, Problem Solving

PROJECTS

- **IOT ML-Based Smart Water Quality Monitoring System:** Developed a real-time IoT-based water quality monitoring system using Arduino and sensors such as pH, turbidity, TDS, and temperature. Validated sensor data accuracy and performed preprocessing before applying a Decision Tree model for safe/unsafe classification. Conducted functional testing, identified sensor calibration issues, and resolved data inconsistencies to ensure reliable system performance. Documented troubleshooting steps and system behavior.
- **Automatic Plant Watering System:** Designed an IoT-based automated irrigation system using soil moisture sensors to control water pumps based on defined thresholds. Tested real-time moisture data processing, diagnosed sensor response delays, and performed debugging to improve system reliability and efficiency. Ensured accurate threshold validation and smooth automation through structured testing and monitoring.

INTERNSHIPS

- **Data Analytics**, Udemy(Virtual) May 2025 – July 2025
Completed training in data cleaning, analysis, and visualization using Python and Excel. Performed exploratory data analysis (EDA) on real-world datasets and gained hands-on experience in identifying data inconsistencies and improving data quality.
- **Python Programming Intern**,Nellore(Remote) June 2025 – July 2025
Completed a 4-week internship focused on Python programming and application development. Strengthened coding, debugging, and problem-solving skills through practical assignments and mini-projects, with emphasis on writing efficient and error-free code.

CERTIFICATIONS

- Power BI Workshop – Skill Nation August 2024
- Certified in Python from GreeksforGreeks September 2025
